

# MISSION ACCOMPLISHED

When getting there is half the battle

## Get like-new performance at a fraction of the cost with the Fontaine Reset to Rebuild Standards Program

- The Fontaine M871 and M872 Reset Program incorporates advanced trailer technologies to transform battle-worn trailers into mission-ready assets
- Every trailer is 100% disassembled, stripped to bare metal, grit blasted and rebuilt to factory specifications for maximum performance and durability
- Components are replaced using the latest trailer technology making the final result superior to the original new trailer
- All Fontaine Reset trailers retain the exact mission capabilities as the original new trailers
- Fontaine in-house capability and expertise includes:
  - Finite Element Analysis
  - Solid modeling
  - Shot blasting
  - American Welding Society D1.1 Certification
  - Flame spray
  - CARC (Chemical Agent Resistance Coating)
  - Special coating (parts and components)
  - Polysulfide coating
